

The Wisconsin "Do Not Call List" has protected my family and I from the invasion of privacy in our home, allowed my family to have uninterrupted meals, allowed me to get the sleep I need, I'm a shift worker and often need to sleep during the day, but need to have to phone on as I have children in school.

I will not patronize any business that supports repeling or weaking the "Do not call list". This is the type of issue that would influence who I vote for or against.
